

Session III: Brain circulation Schemes for Developing Lasting Networks of Excellence

Co-chairs:

US [Linda Katehi](#), University of Illinois at Urbana-Champaign

EU [Pär Omling](#), SRC/EUROHORCs

Topic A: Now models of transatlantic research integration

US: [Sabine O'Hara](#)

EU: [Pavel Exner](#)

Topic B: Lasting early careers networking of excellence

US: [Richard Bissell](#)

EU: [Andrej Umek](#)

Topic C: Mobility of researchers to access large research IS

US: [James Herrington](#)

EU: [John Wood](#)

Session 3:
Brain Circulation Schemes for Developing Lasting Networks of
Excellence

Monday

11.00 – 12.30
General discussion

13.45 – 14.00 Introduction

14.00 – 14.50
Topic A: New models of transatlantic research integration

14.50 – 15.40
Topic B: Lasting early careers networking of excellence

Break

16.10 – 17.00
Topic C: Mobility of researchers to access large research IS

Session 3:
Brain Circulation Schemes for Developing Lasting Networks of
Excellence

Tuesday

9.00 – 10.40
Reports from sessions

9.50 – 10.15
Reporting from Session 3

Session 3:
Brain Circulation Schemes for Developing Lasting Networks of
Excellence

Rapporteurs:

US: [Olga Cabello-Henry](#),

US Department of State

EU: [Magnus Harviden/Martin Wikström](#),

Embassy of Sweden Washington DC

EC: [Karim Berkouk](#)

Directorate General Research European Commission

Session 3: Brain Circulation Schemes for Developing Lasting Networks of Excellence

	General discussion	New models for transatlantic research integration	Lasting early career networking of excellence	Mobility of researcher to access large research IS
Do we need programs or initiatives?				
Main factors enhancing mobility?				
Different needs in various scientific domains?				
Obstacles?				
How increase attractiveness of Eur. to US students?
